AMARILLO, TEXAS, FRIDAY, NOVEMBER 16, 1906

NO. 92

## WATERWAYS CONVENTION.

Fifteen Hundred Delegates Are Gathered in St. Louis--Many Are Prominent.

## PERMANENT BODY.

Organization to be Completed, Which Will Work Through River Improvement Associations. Gov. Campbell Present

St. Louis, Mo., Nov. 15.—Nearly 1,500 delegates, including numerous governors, senators and representatives, are gathered at the Odeon today, where the opening session of the Deep Waterways convention is in progress. Among the distinguished visitors, many of whom will deliver addresses, are the following:

Charles J. Bonaparte, secretary of the navy; Joseph Cannon, speaker of the house; senators Cormack of Tennessee; Bailey, of Texas; Warner and Stone, of Missouri; Allison, of Iowa; McCrory, of Kentucky; Hemaway, of Indiana; Ankeny, of Washington, and Governors Folk, of Missouri; Deneen, of Illinois; Davis, of Arkansas; Brownard, of Florida; Frantz, of Oklahoma; Blanchard, of Louisiana; Lawson, of West Virginia, and Davidson of Wisconsin. Governor-elect T. M. Campbell, of Texas, will also deliver an address.

The chief object of the meeting is the restoration of river transportation by deepening the channels, thus bringing boat transportation into competition with the railroads. A permanent body will be organized which will work through the river improvement associations of the Upper Mississippi, the Ohio, the Missouri and the lower Mississippi, as well as various commercial bodies, to secure appropriations from congress for the improvement of the internal waterways of the country.

According to the reports of the officials of the Business Men's league, under whose auspices the convention is being held, the work of constructing a waterway from the lakes to the gulf has already been half accomplished, without cost to the government, by the completion of the Chicago sanitary and ship canal. Congress will be urged to complete this work by making a fourteen foot channel connecting the canal, through the Illinois river with the Mississippi. It is estimated that this would cost about \$31,000,000. Any warship now afloat, it is said, could pass through such a channel.

## IOWA MONUMENT UN-VEILED AT VICKSBURG

Vicksburg, Miss., Nov. 15.—Governor Albert B. Cummins of Iowa, accompanied by his official party, the Fifty-fifth Iowa regimental band and several hundred veterans of the Hawkeye state are here to participate today in the unveiling of the Iowa monument at the National Military park. Governor Vardaman of Mississippi will deliver an address. The monument will be unveiled by Miss Grace Rigby and Miss Edwina Stanton and will be presented to the governor of Iowa by Captain John F. Merry, chairman of the Iowa Military Park commission. Governor Cummins will in turn present the memorial to the United States government, represented by General Greenville M. Dodge. At the conclusion of the ceremony the school children of Vicksburg will join in singing "The Star Spangled Banner."

Chairman Merry of the low commission originally suggested the establishment of the Vicksburg National Military park and was influential in securing the passage of the act of congress making the appropriation for that purpose.

### Arizona Miners' Contest.

Phoenix, Ariz., Nov. 15.—A miners' drilling contest for the championship of Arizona is a unique feature of the program at the territorial fair and has attracted scores of miners from the various Arizona camps. Handsome cups, suitably inscribed, will be presented to the win-

ners of both the individual and team contests.

## SENATOR PLATT AND WIFE TO SEPARATE

New York, Nov. 15.—The announcement that Senator T. C. Platt and wife had agreed to separate and had signed papers to that effect was no surprise to the public. That the senator has made a settlement was the general opinion among friends, but it is not known what it was.

The assumed includes property at Highland Hills where Mrs. Platt is making her home.

Admit Southern Cattle.

Topeka, Kan., Nov. 15.—In accordance with the orders of John

B. Baker, state livestock sanitary commissioner, southern cattle will be admitted to Kansas after inspection, beginning today. Inspectors have been placed at all important stations on the south state line and will examine all southern cattle to prevent Texas fever infection. The open season will end January 31.

### Reorganize a Rice Company.

New York, Nov. 15.—At a meeting of the stockholders of the Atlantic Rice Milling company today it will probably be decided to dissolve the New York corporation and reorganize under the laws of Texas. This action is being taken in order to facilitate the transaction of the company's business in Texas.

Headquarters of the company under the new incorporation will probably be established at Beaumont.

### Dougherty-Gardner Bout.

Davenport, Iowa, Nov. 15.—Jimmy Gardner and Jack Dougherty will fight fifteen rounds of catch weights as the main event of a mitt matinee to be given by the Tri-City Athletic club tonight. Dougherty is in fine condition and is expected to put up

a stiff battle against the champion boxer.

Two other fast bouts have been arranged for this evening. Packer McFarland of Chicago will meet Young Morris of Kenosha, Wis., in a ten round contest, and Johnny Conlon of Chicago and Kid Kriegel of St. Louis will go eight rounds.

### CONGRESS MAKES EFFORT TO STOP MEDICAL QUACKS.

New York, Nov. 15.—Physicians from all over the country, who are here to attend the American-International Tuberculosis congress, are holding a conference at the Hudson theater today for the purpose of organizing a society to work for the enactment and enforcement of laws against all kinds of medical quackery. The society, which will be national in its scope, will also seek to prevent the adulteration of drugs and foods and will oppose the sale of alcohol and narcotics under the guise of proprietary remedies.

## GENERAL HADLEY FILES SUITS TO ENJOIN STANDARD OIL CO.

Through Resident Attorney, Proceedings Have Been Instituted Under the Sherman Anti-Trust Act, By Filing a Petition of Equity, Asking That the Combination be Declared Unlawful.

## THE SPECIAL ASSISTANTS HAVE FILED REPORT

Attorney General Moody States That This Report Has Been Carefully Considered by President Roosevelt and His Cabinet--Report Shows That the Standard Oil and Its Seventy Constituents and Limited Partnerships Control Ninety Per Cent of the Output.

St. Louis, Nov. 15.—The hearing of depositions of the defense in the oil trust suit of the state of Missouri against the Standard, Waters-Pierce and Republic oil companies was resumed today.

### Attorneys Busy.

Washington, D. C., Nov. 15.—Attorney General Hadley today, acting through the resident United States district attorney instituted proceedings against the Standard Oil of New Jersey under the Sherman antitrust act, by filing in the United States circuit court at St. Louis a petition in equity against it and its seventy constituent corporations and partnerships and seven individual defendants, asking that the combination be declared unlawful and in the future enjoined from entering into a contract of combination in restraint of trade, etc.

Attorney General Moody publicly made the statement today in which he said in part: "In June last, by the direction of the President, Messrs. Kellogg and Morrison were appointed by me as special assistants to the attorney general to act with Assistant Attorney General Purdy, to make an investigation of the relations of the Standard Oil company of New Jersey to the business of refining, transportation, distributing and selling of oil throughout the United States. The counsel have completed that duty and the report of their investigation has received careful consideration by the President and his cabinet. Information available to the department tends to show that the various corporations, limited partnerships, under the control of the Standard Oil company of New Jersey, produce, transport and sell about 90 per cent of the refined oil produced, transported and sold in the United States for domestic use and about the same proportion of refined oil exported from the United States; that this share of business has been procured by a course of

action which, in the main, down to the present time the three persons now surviving are John D. Rockefeller, William Rockefeller, Henry H. Rogers, Henry M. Flagler, John D. Archbold, Oliver H. Payne and Charles M. Pratt, that throughout all of those having control of the enterprise has been to suppress competition and obtain as far as possible a monopoly; that between 1870 and 1882 the design was affected through an agreement between many persons and corporations that in 1882 the result aimed at was to be secured by investing nine trusts, including five of the above named, sufficient stock in thirty-nine corporations to enable the trustees to control the operations in such a way that competition was suppressed.

That plan was acted on until declared illegal by the supreme court of Ohio in 1882; that during the seven years following the same individuals as a majority of liquidating trustees, were pretending to liquidate the trust, but as a matter of fact were managing the corporations in the same way; that in 1889 individual defendants increased the stock of the Standard Oil company of New Jersey from \$10,000,000 to \$110,000,000 and acquired all the stock therefore controlled by the trustees, paying therefor by the issuance of its own shares in exchange; that the purpose and effect of the use of the Standard Oil company of New Jersey as the holding company was precisely the same as the purpose and effect of the appointment of the trustees heretofore referred to, namely to suppress competition; that by the foregoing methods, aided by the establishment of railroad rates which discriminated in favor of the corporations, whose stock was held by the holding company; that the company has been able to obtain a monopoly with the result that prices are very much higher to the consumer than in the territory where competition to some extent still existed. Accordingly a petition in

Standard Oil Stock.

St. Louis, Nov. 15.—Assistant Attorney General Jewell P. Lightfoot of Texas, is here today and began taking depositions in the suit brought by the state of Texas to oust the Waters-Pierce oil company from doing business in that state. Depositions were taken before a notary and in accordance with the laws governing the state of Texas. They were conducted in several sessions.

Can't Find Officials.

Cleveland, Ohio, Nov. 15.—Deputy sheriffs up to noon today failed to find J. M. Hubers, G. M. Vilas and H. McIntosh, the Standard Oil officials who were indicted together with John D. Rockefeller at Findlay yesterday afternoon. The officers didn't visit the home of Rockefeller as they said it was known that the latter was not there. The other three officials, the deputies were told were out of town. The indictments charged a violation of the Vanechling and trust law.

Lightfoot Present.

St. Louis, Nov. 15.—Assistant Attorney General Jewell P. Lightfoot of Texas, is here today and began taking depositions in the suit brought by the state of Texas to oust the Waters-Pierce oil company from doing business in that state. Depositions were taken before a notary and in accordance with the laws governing the state of Texas. They were conducted in several sessions.

ASK Money for Forests.

San Bernardino, Calif., Nov. 15.—A convention of representatives of all the towns relying upon the San Bernardino watershed is being held here to make a united appeal to Washington for appropriations with which to carry forward the work of restoration and to bring about better protection for the forest resources. Professor T. P. Lukens, former supervisor of the San Bernardino and San Gabriel reserves, declares that if the work of restoring the mountains is carried on in an intelligent manner, the watershed will be shaded by towering trees, preserving the rain waters that fall

during the winter season and removing the danger of drought.

Examine Midshipmen.

Annapolis, Md., Nov. 15.—The examination of the midshipmen graduates of the naval academy class of 1904 began today. Instructions were sent to the Pacific and Asiatic stations to hold their examinations today, the idea being to have a simultaneous date for the event.

The successful midshipmen will be promoted to the rank of ensign. Many of the graduates have spent the summer on ships of the Atlantic
